

Mickie Byrd is a seasoned electronics engineer, entrepreneur, and educator with a passion for STEM. A graduate of Texas A&M University, Mickie holds a degree in Electronics Engineering with minors in Mathematics and Computer Science.

Over the past 15 years, Mickie has dedicated his career to teaching STEM, fostering a love for science, technology, engineering, and mathematics in countless students. His commitment to education extends beyond the classroom, as evidenced by his entrepreneurial ventures.

Mickie is the founder and president of Byrd EDU, a non-profit organization committed to ensuring STEM equity. Recognizing the importance of early exposure to STEM fields, Mickie also established Byrd Academy, an institution designed to provide all children with the opportunity to explore and engage with STEM subjects.

In addition to his work in education, Mickie is a successful entrepreneur with several businesses under his belt. One of his most notable ventures is Byrd Innovation, a product development firm that has created innovative products for both small businesses and large global corporations. This work has led to Mickie holding several patents, further solidifying his status as a leader in the field of product engineering.

Mickie's dedication to education and entrepreneurship has not gone unnoticed. He has been recognized for his efforts in keeping learning fun and engaging for students, demonstrating his unwavering commitment to their mission.

With a career marked by innovation, leadership, and a deep commitment to education, Mickie Byrd continues to strive for STEM equity, inspiring the next generation of scientists, engineers, and mathematicians.
